house**

In-home care for kids with complex needs

**Registered NDIS
Provider for children
with complex needs**

www.hannahshouse.org.au

What NDIS Supports can we provide?

Hannah's House is committed to giving you choice and control over your child's NDIS Plan and making decisions that will help achieve care and developmental goals.

Utilising funding from **CORE SUPPORTS**, Hannah's House can help you manage your child's everyday activities and disability-related needs. This includes assistance with daily living tasks (for example helping with personal and health care needs) and assistance with social and community participation (for example going to school or enjoying social outings).

Hannah's House also offers a team of **Registered Nurses** who can provide for your child's more complex health needs where you have an allowance for nursing in your budget.

Our supports are available seven days per week, including overnight awake supports, and will always be **flexible and tailored** to your child's plan goals. We can work directly with parents or together with your Support Coordinator or other advocates to maximise the benefits of your child's NDIS Plan.

Extended In-Home Care

Occasionally, you might want longer care hours for your child but don't want to use out-of-home respite. Depending on your NDIS Plan, Hannah's House can provide a package of care within your home, with staff rostered over a **24-hour period**. This could be for one day or several days and would involve all aspects of your child's care during this time.

Please give your Support Coordinator or Plan Manager a call to understand your budget or discuss including an allowance for respite support at your next NDIS Plan Review.

Why choose Hannah's House?

Hannah's House specialise in support for kids! We care for children from birth up to 18 years of age. This means our team of support workers and registered nurses have paediatric experience and are skilled in meeting the needs and goals of children.

Hannah's House offers:

- ▶ Supports for children with neurological and respiratory conditions, global development delay, acquired brain injury and other complex conditions.
- ▶ Staff skilled in complex care needs including tracheostomy and respiratory care, seizure management, nutritional feeding and other high intensity supports.
- ▶ We have registered nurses with paediatric experience supervising staff and caring for families.
- ▶ Dedicated in-house clinical educators providing training and support to staff and families, in the office and in your home.
- ▶ Free Playtime Play Therapy Program for all participants. Includes personalised play plan and access to fortnightly playgroups.

And our team are always kind, friendly and caring!

What our families say

“Master K has been cared for by Hannah’s House since we first came home from hospital in 2017. Over that time their support has enabled us to do things with Master K we might not have achieved otherwise. Today Master K loves having his ‘special friend’ come to visit. She meets him after school and they catch the bus home together. While they spend a lot of time playing and having fun, Master K’s support worker builds physiotherapy into their play and is assisting to meet his therapy goals which is awesome.”

Master K, age 5 years (dystonic quadriplegic CP)

“Hannah’s House is an amazing organisation with carers that are passionate, knowledgeable, and just really care for our kids with life-limiting disorders. The nurses have provided invaluable support and advice, and really helped at a time that we’ve needed them most. They go above and beyond, and we just can’t recommend them enough.”

Miss S, age 6 years (rare neurological disorder)

Jaydan

“My teenage son Jaydan has a Complex Congenital Heart Disease, DiGeorge Syndrome, Osteoporosis and intellectual delay. Jaydan is in a wheelchair and can only walk short distances under 1:1 supervision and assistance. We have loved the experience of having someone come into the home to care for Jaydan. He really enjoys going out and about with his support workers, who are helping building his confidence and independence.”

Jemma, mother

“I love it when my support workers from Hannah’s House come because they like doing the same things as me and playing Minecraft and making videos. I have a lot of fun when they come. They look after me and talk to me. They teach me lots of things too.”

Jaydan, age 13 years

Hannah's House is committed to the NDIS Code of Conduct and ensuring that we provide supports and services in a safe and competent manner. We respect your right to privacy and to making decisions to support your child's needs.

Making participants and their families feel welcome and included is important to Hannah's House. During the year we hold family and parent events and we also offer fortnightly playgroups for you and your child to socialise and have fun.

Our care is guided by our core values of:

- ▶ Integrity
- ▶ Determination
- ▶ Collaboration
- ▶ Caring
- ▶ Kindness

We look forward to talking to you about how we can support your child's NDIS Plan.

Welcome to Hannah's House!

Hannah's House is a family-centred service caring for children and young people aged from birth to 18 years who have life-limiting or complex conditions and disabilities.

We focus on the development and care outcomes that are important to your child and work in partnership with the whole family to support your child to participate fully in everyday life – at home, at school or in the community.

As a specialist service, our staff are skilled in supporting children with **high intensity and complex needs**. This includes assisting with daily management of respiratory conditions, seizures, nutritional and personal care needs and engaging your child in a range of developmental and play activities to build skills and capacity.

We share your desire to see your child enjoy as many opportunities and experiences as possible.
